ONLINE PROCTORING

Online Proctored Exams

PEOPLECERT Online Proctoring is the simple, secure and hassle-free approach to exams. It is ideal for professionals who wish to take an exam at the convenience of their preferred location and time. It is compatible with both PC and Mac. All that is required is a computer connected to the internet and a webcam. It's as simple as that!

Exams made simple

Candidates can take their exam wherever they want, whenever they want. Online proctored exams allow candidates to conveniently sit for their exam using a laptop with a webcam, at home, at work, or almost anywhere with internet access.

PEOPLECERT Online Proctoring connects candidates directly to an authorised PEOPLECERT proctor (invigilator) via webcam, who guides them throughout the exam using simple instructions.

With PEOPLECERT Online Proctoring, candidates can take their exam with no distractions from fellow test takers so that they can give it their best shot in a fair, transparent and efficient way.

Candidates are observed via webcam and spoken to via the computer's speakers. There is no need to dial any telephone number or log onto any chat sessions. Online proctors inspect the test room, any materials allowed by the test sponsor, and more.

Integrity is the pinnacle of PEOPLECERT Online Proctoring

PEOPLECERT uses highly sophisticated methods to monitor candidates, without obstructing them or adding any administration or hassle to what may already be a high-stakes process.

What's more, PEOPLECERT uses proprietary technology to lock down a candidate's computer and block all programs that could be used for unfair advantage or cheating. Sophisticated software also monitors suspicious activity, such as unusual keystroke patterns, eye movement, etc.

Positive ID verification is a strict requirement for all online-proctored exams. The ID's are all captured via the webcam and stored as a part of the candidates file.

In a nutshell candidates benefit from:

- **Convenience** – exams can be taken almost anywhere as long as there is internet access
- **Flexibility** - choosing the time of the exam through the online scheduler
- **Simplicity** – hassle-free online registration

- **Support** - 24/7 customer service
- **Comfort** - guidance by an authorised proctor throughout the process, from start to finish
- **Swiftness** - instant online provisional results & e-certificate once the official results are out
